 with gold and a flush of
 blue on the falls. - .90
 DYMIA - Smooth, rich, blue-
 purple self. Blue-white
 beard, flaring falls. - .25
 EASTER MORN - Beautiful,
 tall white. Gold beard. - .25
 E.B. WILLIAMSON - Coppers and
 reds blended into a bright,
 glowing combination that is
 neither copper nor red. Per-
 haps, red-copper flushed rose
 would describe it. It is a
 very nice Iris anyway. - .60
 ECLADOR - Splendid, large
 flowered, medium yellow
 that blooms after the other
 yellows are about gone. - .25
 ELENA CHOOSING - (White 1944)
 A new one from California.
 S. old-gold. F. Bronze-gold
 with blaze of bright lilac
 below the orange beard. - 12.50
 ELMOHR - An enormous flower
 of reddish mulberry. This
 great hybrid from Dr. Loomis
 presents a new conception in
 Iris size, style and perfec-
 tion and is always a center
 of attraction. - 5.00
 ELSA SASS - Sulphur-yellow,
 with white patch on falls.
 A new shade of yellow that's
 sparkling and different. - 1.00

GREAT LAKES - Lovely, tall medium blue self from Canada. Dykes Medal 1942.	1.50
GUDRUN - The best white for foreground planting. Huge flowers of warm white with yellow beard.Each stalk is a boquet by itself. The breeder was Mrs. Katherine Dykes, widow of the Dykes Medal recipient.	- - - .25
HAPPY DAYS -A grand medium yellow but a bit tender.	.25

HELEN M. RIEDEL - S. bronzy-
yellow. F. orange-red. - - 1.00

INDIAN HILLS - A rich, lovely
pure purple self. This Iris
will hold its own in any
garden or any company. - - .30

INDIANA NIGHT - Rich, velvety
purple. Larger and a bit
bluer than its lustrous
parent Sable. - - - 10.00

JAKE - A splendid, tall
white Iris by "Jake" Sass.
Introduced by J.D. Long. - 1.25

JASMANIA - Banana-yellow self.
This fine yellow is always
a pleasure, always good. - .30

JOYCETTE - Tall, bitone. Almost
a purple in a shadow, blaz-
ing red when the sun
shines through it. - - .25

JUNALUSKA - Classed as a red,
it's really a blend of gold
copper-rose and red. Excel-
lent for cutting. Tall. - .30

KLONDYKE GOLD - Huge, deep
golden yellow by Kirkland. 3.00

LANCASTER - Blend. Pink, old-
rose and yellow. Distinctive
very broad petaled form. - 3.00

LATE SUN - Clear, deep, rich
yellow with red-gold over-
lay and an orange beard. - 2.00

LIGHTHOUSE - Bitone. Old-rose
and rose-red blending into
a bright golden center that
lights up the whole flower. .50

LORI MAY - Bright daphne-
pink shaded rose. 34 in. - 6.00

LOS ANGELES - Plicata. Lovely
soft white lightly marked
clear blue at center. - - .20

LOUVOIS - Bitone. S. Light
chocolate-brown. F. Very
dark maroon-brown with a
chocolate border. 32 in. - .75

MAJENICA - A clear, bright
pink blend with an under-
tone of peachy apricot. - 8.00

MARISHA - Usually classed as
a "pink blend". To me it's
a very nice "creamy-pink
bitone". We think you will
like it either way. We
most certainly do. - - 1.00

MARQUITA	- S. Very light cream. F. same but lined and veined watermelon-red. No other Iris like it.	- .35
MARY GEDDES	- S. Salmon-orange. F. pompeian-red. Dykes Medal 1937.	- .25
MATTERHORN	- Considered by many to be the finest of whites. It's like a piece of soft, white satin.	- 1.00
MATULA	- A luscious blend of rose, buff and apricot that everyone goes back to look at again.	- 1.00
MELANIE	- An orchid-pink, a bit deeper than others in this class. A fine Iris.	- 2.50
MELITZA	- A light pinkish Iris. Tangerine beard.	- 2.00
MICHAEL ANGELO	- Dove-gray. An old favorite. Large.	- .20
MIDWEST GEM	- Beautiful blend of peachy buff and pink. Large, ruffled flowers. It is another of those everyone goes back to look at again. Good grower too.	- .60
MING YELLOW	- Grand, large flowered, medium yellow. A better "Happy Days" and perfectly hardy.	- 1.25
MISS ANN	- A new, pearly-pink toned blend both lovely and different.	- 7.50
MISS CALIFORNIA	- Our visitors call it "That lovely orchid-pink". Plant it with a blue and a white. Tall.	- .40
MISSOURI	- The famous clear, medium blue with flaring falls. Dykes Medal 1936.	- .40
MME. LOUIS AUREAU	- Everyone likes this charming plicata from France. Silvery white heavily marked heliotrope.	.35
MOHRSON	- Wm. Mohr seedling. Deep violet veined darker. Larger and darker than Wm. Mohr and easier to grow.	- .35
MONADNOCK	- Tall, vivid rose-red. Another grand Iris that can hold its own in any company. Blooms late.	- 1.25
MOROCCO ROSE	- Very close to true pink. This grand Iris set a new standard in the "pink" color class.	- 1.00

MOUNTAIN SKY - Beautiful, soft medium blue with a flush of yellow at the center. - 2.00
 MOUNTAIN SNOW - Cool, crisp white self having a faint blue cast that is often thought to be a shadow or reflection. Ruffled form. - .30
 MRS. J. L. GIBSON - Dark, or pansy-blue, almost a purple. An old favorite whose popularity continues year after year. Fine for cutting. - .30
 MULBERRY ROSE - A new shade in deep pink or, as the name implies, mulberry-rose. - 7.50
 NARAIN - Clear, silky marine-blue self. Large flower, good grower and blooms a bit early. - .25
 NARANJA - An orange-yellow. S. are unusually bright. - .25
 NEON - Splendid, large, tall Iris, S. bronzy-gold, F. Coppery-red. It's bright color and abundant bloom make it especially good for massing and for cutting. - .20
 NO-WE-TA - Most pinks have an orchid tone. This one is a charming creamy-pink, all frilly and ruffled for the front of the border. - .20
 NYLON - A new, light buff-tan blended with a flush of rose and a hint of soft lavender. It's nice. - 1.25
 OLA KALA - J. Sass's new deep yellow. - 15.00
 OLD PARCHMENT - Self. White and golden-buff blended to a creamy "old parchment. - 1.75
 ORLOFF - Plicata. Creamy yellow ground heavily marked rich red-brown. - .50
 ORMOHR - Huge flower, silvery lilac veined violet. 40 in. We know of no Wm. Mohr seedling, in this color class, except the great "ELMOHR", that surpasses this one. - 1.00
 OURAY - One of the first real reds, it's still one of the best in color. Its medium (not small) size is the reason for its low price. - .35

OZONE -Distinctly different.
 Beautiful blend of bluish-
 violet with heavy pinkish
 sheen and a fawn-brown cen-
 ter.A symphony of color. .35

PATRICIA - Charming, clear
 white with all petals flutted

THE ADMIRAL - A splendid
blue self, a bit deeper
than medium blue. Tall. - 3.50

THE BLACK DOUGLAS - Very
dark red-purple bitone.
Medium in size but rich
in color. Good bloomer. - .20

THE RED DOUGLAS - The "red"
Iris that won the Dykes
Medal for 1941. Large,
tall and a good grower. - 1.00

THE SENTINEL - Bright,
burnished copper self.
Poor branching but bril-
liant color. 36 in. - 3.00

THREE SISTERS - S. cream.
F. bronzy, indian-lake.
Will bloom a dozen or
more flowers per stalk. - 4.00

TIFFANY - The standard of
excellence in the yellow
plicata class. Clear yellow
ground marked with rosy-
lilac so heavily it gives
the whole flower a reddish
cast. If you have Iris at
all you should have this. - .50

TOBACCO ROAD - Klein. 1942.
Golden tobacco-brown. - 12.00

TONGA - DeForest 1941.
Russet colored flower,
shaded vandyke-red. Tall. - 3.00

TREASURE ISLAND - Many yellows
come - some stay - some go,
but the longer one has this
one the more he appreciates
its all around excellence. .35

VELVET KING - Velvety, rosy
red-violet with heavy gold
beard. A very nice Iris. - 1.50

VIOLET CROWN - Pure, light
violet self. No other Iris
just like it in color. It's
lovely and hard to beat in
every way. - - - .35

WABASH - The only amoena we
know of at this time that
is now worth while. S. pure
white, widely flaring falls
rich, bright violet-blue
edged white. 38 in. Dykes
Medal 1940. - - - .90

WILD ORCHID - Orchid-pink
with flush of violet and
copper at the haft. 38 in. - 1.50

WINTER CARNIVAL - Waxy, snow
white with golden center
and flaring falls. Tall. - 3.50
WM. MOHR - The first of the
famous "Mohr" Pogo Cyclus.
(hybrid). Small plant, large
flowers, pale lilac veined
dark violet. We believe
our Wm. Mohr rhizomes are
the best in the country. - .25

YELLOW JEWEL - Excellent,
golden yellow by K. Smith. 3.50

THE DYKES MEMORIAL MEDAL WINNERS

A "PARADE OF THE CHAMPIONS" FOR YOUR OWN GARDEN

To date
THE AMERICAN IRIS SOCIETY
has awarded the DYKES MEDAL to
the following fourteen Irises.
SPUN GOLD, the 1944 winner, is
the first yellow Iris to be so
honored. It's clear, beautiful
coloring is indeed, a far cry
from the muddy, brown yellows
of only a few years ago, and
thus again, we become mindful
of the many vast improvements
so rapidly being made in all
color classes.

IRIS
"THE LILY OF THE FIELD"

"CONSIDER THE LILY OF THE FIELD
X X I SAY UNTO YOU, THAT EVEN
SOLOMON IN ALL HIS GLORY WAS
NEVER ARRAYED AS ONE OF THESE".
(Mathew 6-28)

We grow, in addition to our regular list, a group of some one hundred seedlings from the garden of

DR. PHILIP A. LOOMIS

Colorado's famous Iris hybridist. Each year we bring to this group, for trial and our own pleasure, the cream of his newest bloomings. From this group one might easily pick a number well worthy of introduction - well above the average standard. Here we grew the great ELMOHR as seedling Wm. Mohr X R.S. and knew it as Mohrene. RED AMBER and MOROCCO ROSE grew here and most of his famous SEA SHELLS from the original through the years up to and beyond the well known SPINDRIFT, the only one ever offered for sale. The lovely V-20 and many others grow here including the little known, but to us, the most delicately beautiful of all, SQ-72.

In our list you will find most of the good, reasonably priced Iris and a goodly number of the newer, more expensive, introductions. There are some two thousand varieties in commerce today and a hundred or more new ones being introduced each year. Of all this great mass of varieties only a few hundred are worth ones consideration, the rest being old, obsolete varieties - or, mediocre newer varieties with which we, personally, have little patience. A high price adds nothing to the real merits of any Iris, neither does the enthusiasm of the inexperienced nor the most eloquent catalog description. The accumulated progress of the Iris hybridists, through the years, has given us many, many fine Iris, new and better colors - larger and more

flowers, indeed, vast improvements in all the things that make an Iris good, therefore, we believe, the obsolete and the mediocre to be quite unnecessary. We have been growing Iris for many years and are constantly revising our list, eliminating older varieties as soon as a better one of similar type or color is available at a reasonable price. We prefer to offer a smaller list of the better varieties in each price class rather than a long, long list that represents little more than an accumulation of the good, bad and indifferent.
